

“RxOffice® HMS software is simple to use and addresses the true requirements of the Medium sized hospitals. The process of registration to billing and Patient Discharge is simple and our staff found it easy to use”

Dr. Rajeev Godbole, M.S.,M.C.H.(Cardiothoracic & Vascular Surgery)

The Organization: Dr. Godbole’s Heart Care Hospital

- One of the oldest private hospitals in Thane District, started by Dr. C. G. and Dr. Mrs. S. C. Godbole in 1968
- This Cardiac Hospital is a one stop solution for all heart ailments. This is a second generation of Cardiac specialist. Dr. Godbole’s Heart Care Hospital is the only ISO Certified Hospital in Thane
- The only standalone hospital in Thane for it is fifty bedded right from Noninvasive cardiology To Invasive Cath lab procedure like Angiography, Angioplasty, Open Heart Surgeries (CABG) With advance Critical Care units (ICCU/MICU)
- The Hospital is fully equipped with the State of the art Operation Theaters, Dialysis Unit, and Emergency care units and well supported with 24 hours Diagnostic services like pathology, Radiology, Echo, ECG etc.
- The Hospital has a dedicated team of Consultants along with specialists with Trained and experienced nursing and paramedical staffs.

The Problem :

- Maintaining Medical Records
- Maintaining hospital administration records
- Non uniform discharge summary leading to missing of crucial data
- Insurance Claims and Payments

- Missing Automated Discharge Summary
- One Page Review of Hospital Health

The Solution:

- RxOffice® HMS is well-equipped to keep track of old patients and avoids repetition of work
- RxOffice® HMS maintains error free OPD/IPD Billing Process within a reduced amount of time and fewer manual interventions
- Discharge summary is ready at the time of patient discharge which saves the time of the staff and patients
- RxOffice® HMS generates a report termed “Day Summary”, where in a single window the user is able to view the hospital activities of the day and this worked as a time saver for the administrator
- The Tally integration Utility manages the accounts department work by transferring the daily entries or date wise activities directly into Tally therefore avoiding duplication of work
- RxOffice® HMS generates the Patient Outstanding report on daily basis. Godbole Hospital can track the patient outstanding in a single click and the patients are easily updated on their due payments
- The concession report helps the hospital to keep track of concession given to each patients
- The Services Charges report gives the details of the services provided by the doctor within a specific period as well as keeps track of deduction of the TDS if the limit is reached. This will ensure correct payments to visiting doctor.

The Results

- Correct maintenance of medical Records
- Uniform discharge summary
- Insurance Claims and Payment streamlined
- Automated Discharge Summary
- Correct billing to patient
- Correct payments to the visiting doctors
- One Page Review of Hospital Health
