

Dr. Umesh Alegaonkar

M.D. (INT. Med.)Sampada Hospital and Intensive Care Unit

“The Software has helped in Proper Record Keeping. It’s a time saving and user friendly software. All our requirements are properly handled in the software. It has streamlined our hospital working. We are thankful for the Fast and Prompt Service given by their support department.”

The Organization:

- Sampada Hospital and Intensive Care Unit- Thane is a 15 bedded hospital with 6 Bedded state of art Critical Care Unit, along with operation theatre, Special Rooms & General Ward. 24 x 7 Pathology, Pharmacy, Ambulance Services, X-Ray, USG & Neuro-Imaging services
- Sampada hospital provides services in the field of critical care to people from all stratum as money is of lesser importance and ‘Hope, Health and Humanity’ is what the hospital believes in.
- Sampada Hospital-Thane has highly experienced and talented team of senior Medical Consultants and Doctors and a full team of Paramedical staff that ensures the availability and access to the best medical talent round-the-clock.

Problems:

- Tracing back dated bills manually was time consuming
- Getting statistical data was time consuming
- Billing calculations for patient was incorrect sometimes also few services provided to the patients were missing in the bills
- Report of visiting doctors were prepared manually

Solution:

- Tracking of backdated bills is done effortlessly with RxOffice® HMS
- Through RxOffice® HMS “Reporting module” the statistical data is generated swiftly
- Patient billing is accurate with all the services given to the patient included in the bill
- Separate reports for visiting doctors can be generated on a daily/monthly basis

Results:

- This saves time and manual efforts of the hospital staffs
