

ITShastra Expands Executive Team

MUMBAI, India, Mar. 18, 2011 –

MUMBAI, India, Feb. 16, 2011 – [ITShastra](#), a software development, testing and design company for worldwide business needs and offshore project delivery, today announced several key executive team promotions to further strengthen its global footprint and better manage company growth.

Prasad Nagool, ITShastra CEO, said, “We experienced robust growth last year adding 18 new clients and completing several major projects. With all of our major clients in varying verticals retaining us as their partner and the new projects in hand, the company’s atmosphere is charged with energy and we are ready to take on exciting new opportunities. These promotions will strengthen the executive team and further define career paths for the middle management team.”

General Technology Manager, Yogesh Chaudhari, has been promoted to SVP of technology. He will spearhead the introduction of new technology and application development for ITShastra. Chaudhari has 11 years of IT experience in the U.S. mortgage banking industry.

Sandhya Ashokan is now vice president of Web technologies. She has been leading the web development efforts for ITShastra for the past six years. In her previous job, Ashokan worked with People Group (Fropper.com and Shaadi.com). Sameer Desai, who for the past six years has been project manager in the quality department, has been promoted to vice president of quality assurance. He was instrumental in establishing the Capability Maturity Model (CMM), at ITShastra and managing quality Initiatives.

In addition, Prashant Yelwe, Prashant Jadhav and Rajendra Patil have all been named project managers. For the past six years, Yelwe has been a software developer working in the dot net technology team as a team leader. Jadhav has been heavily involved in the quality initiatives and has led the testing team for the Radian project while Rajendra has been overseeing the development activities for the project.

Shantanu Kulkarni, the creative face of ITShastra, has been promoted to manager of web designs. Shantanu has been with the company for five years on various web design projects using various web technologies such as HTML, CSS, Adobe Flash and Imaging softwares.

Nagool continued, “It is our culture to recognize and reward innovation and excellence while also maintaining the “family environment” and core values generating no-nonce results to all clients. Each of these individuals understands the importance of fulfilling business requirements and achieving high-quality results without compromising creativity and technology. They are extremely skilled in the latest developmental technologies and will help ITShastra serve its worldwide clients.”
